

Assignment4_Results

	Cost	QALYs
Without drug	\$9331.448	7.756
With drug but no end-of-life care	\$16,210.620	8.625
With both drug and end-of-life care	\$18,548.626	8.994

	ICER
With drug vs. without drug	7918.141
With both drug and end-of-life care vs. without drug	7446.265
With both drug and end-of-life care vs. with drug	6335.382

1. With drug vs. without drug

This ICER means that for each additional QALY gained by moving from no treatment to treatment without end-of-life care, the additional cost is \$7918.141.

2. With both drug and end-of-life care vs. without drug

This ICER indicates that for each additional QALY gained by moving from no treatment to the treatment with both drug and end-of-life care, the additional cost is \$7446.265.

3. With both drug and end-of-life care vs. with drug

This ICER indicates that for each additional QALY gained by moving from no treatment to the treatment with both drug and end-of-life care, the additional cost is \$6335.382.
